## Maths Aural

- Exam taken in classroom under exam conditions.
- Questions are read out by the teacher and pupils are allowed to show their workings.
- No calculators to be used.

## NOTES/TIPS:

- Revise by practising the questions below, using your note books and appropriate websites like www.mathletics.co.uk or www.mymaths.co.uk
- In all maths exams workings are essential. It must be assumed that any question worth more than 1 mark requires at least one line of working. Workings should not be "doodle" like but be clearly set out in a logical manor preferably starting at the top of the space provided and working in a downwards direction.
- For any further information or guidance about revision or the actual exam, please contact the Head of Maths - Mrs Barbara Langford (blangford@westbournehouse.org)
