

## HPL survey week 6 Christmas term 2020

Year group	Which is the most useful HPL and why?	In which subject do use the HPL the most?
Year 8	Linking - because it puts topics together. Makes a huge difference because establishing one thing helps gets from A to B	Maths
	Realising - because it is the practice to get to the point when you can do it automatically - it's good to know you are at that point.	Maths
	Realising - because especially in maths and exam techniques. Boosts the exam results.	Maths and English
	Realising - if I learn something in the lesson before then can use it in the next lesson.	Maths and English
	Hardworking - perseverance - made me work a lot better than I did last year.	Maths and English
	Linking - makes cross-reference Empathetic - its the one I get the most credits of because I help teachers	English
	Linking - makes you think about the past	English
Year 7	Agile - have to be open-minded because new stuff is different and you don't want a negative mind.	Maths and English
	Linking - because a lot of the work in year 7 is using the techniques from year 5&6 to learn new stuff (new this term)	Maths
	Empathic because you think about more than one person and not just about yourself.	Maths (linking) History - empathy (think what it was like in the past) In English we write the HPL we are aiming for in every lesson. In Maths he tells us which we are using.
	Hardworking, Creating and Empathetic are all equal. With creative you to set your mind to think of new ideas.	History, Science, English and Maths

Year group	Which is the most useful HPL and why?	In which subject do use the HPL the most?
<b>Year 6</b>	Empathetic - working in a team and teaches you to be kind to each other (new this term)	English and Art
	Hardworking - makes you push your limits so you can try new things	Maths, Science and PE
	Analysing or Linking - if you learnt something new in Geog, like how to spell a complicated word and then you use it in English	Maths, Geography and Art
	Empathy - because it is good to make people feel special and be kind to them	Maths and English
	Linking - because you can link things from different classes.	Maths and English
	Hardworking..... umm no ..... Maybe analysing - because you need to think logically to help you in life.	Humanities - because you do a lot of linking and analysing
<b>Year 5</b>	Empathy - because you can always help others - thats a really good skill in life	
	Linking - because use your brain to think back on what you have already done to help you on a question	Art and Tech
	Hardworking because it makes you concentrate in class	RS - teachers use it - they put it on the screen
<b>Year 4</b>	In my lessons I get realising credits at lot and I think I have lots of agile credits- realising because you remember your numerators and denominators and agile are for thinking really quickly.	English and Maths
	Hardworking - if you don't work hard you won't know stuff	English
	Realising - you help yourself round a problem and try and improve that. No not that, Agile - I think Agile is the best.	L4L and Maths - lots of mentions in L4L (L4L is our PSHE)

Year group	Which is the most useful HPL and why?	In which subject do use the HPL the most?
	Mr Hardworking - we use him the most because you need that in nearly every piece of work you do because you have to try your hardest.	Topic or English - because the teachers like to look for nice writing as well as all the other HPL work.
<b>Year 2</b>	Mr Hardworking and Mr Empathic. Almost everyone wants to be one of them and they help get your skills better.	English
	Mr Hardworking	Maths
	Princess Creating	
	Master Empathetic - because he is a good superhero because he looks out for others.	We mostly use them when we're trying to get in the golden book. And in Maths and English and stuff
